The Indus Group Co.

"Partnering for sustainable growth."

Company Overview

Established in 2011, Indus Group supports businesses, especially MSMEs and Trade Support Organisations (TSOs), to adapt to the evolving global marketplace. Indus Group products accelerates business growth by addressing three key challenges in global trade: bridging international trade knowledge gaps, simplifying complex supply chain solutions, and providing Enterprise Solutions for SMEs. Our proprietary platform, “Global Trade Navigator” combined with personalized customer service, ensures cash flow for cargo release. By consolidating all shipment services on TheIndusGroup.com, we reduce costs and time.

About Us

OUR GOAL

"Our goal is to innovate, empower and deliver sustainable value."

OUR MISSION

"Listening to clients, valuing people, and promoting sustainability."

OUR VISION

To be recognized as "Maximizing value through innovation, optimization, and adaptability."

we take **Pride** in
Caring for our
Customers!

Our goal is to be the one stop for all of our clients needs, whether large or small.

Why Choose Us ?

Specialization Training

This extensive training program is designed to cover all major aspects of supply chain management, including logistics, procurement, operations, technology integration, and strategic planning. Students will receive a well-rounded education that prepares them for various roles within the industry.

Industry Visits & Projects

Regular visits to logistics and supply chain facilities allow students to see the practical applications of their studies. Throughout the course, students will work on projects that simulate real-world challenges. These projects help students develop critical thinking, problem-solving, and project management skills.

Guest Lectures

Industry experts are invited to share their experiences and insights with students. These sessions offer valuable perspectives on current trends, challenges, and opportunities in the supply chain industry, enriching the students' learning experience. Experts from various corporates will be invited.

On-Ground Internships

Internships provide students with the opportunity to gain work experience while earning money. This financial support can help ease the burden of education costs and give students a sense of independence. Internships strengthen the resume of the candidate for final placements.

Final Placements

Our extensive network of hiring partners ensures that students have access to numerous job opportunities. We provide dedicated placement support to help students secure positions that align with their career goals, ensuring a smooth transition from education to employment.

Value Proposition

Comprehensive Curriculum

Training covering all aspects of supply chain management

- **Benefits:** In-depth knowledge and skills

Industry Integration

Collaboration with top logistics and supply chain companies

- **Benefits:** Real-world experience and job readiness

Placement Support

Assistance with resume building, PDP, industry visit internships and final placements

- **Benefits:** High employability and career success
